

HIGH  
9-12

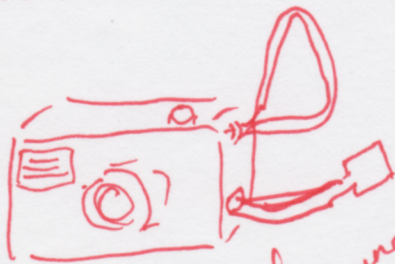

# Making Journals (blogs)

# first name last name  
# project name

having all student log on with the same user/password, making sure they tag each post with their name & their project name ...

easy to filter and search

Keep point and shoot cameras around so students can catch their progress and share it on the blog

computers or tablets  
camera s + usb cord

tumblr or other blog account

\* Admin account  
\* class author log in

# hash tags

1. group or project name
2. student name (post author)

for the students who try it but hate the platform

they need to make at least one post for the experience

BUT if they really prefer documenting in another way -- let them.

PROMPT: Track & document the project **visually**, find your own way to **SHOW YOUR PROCESS**

(Ideas) Sketchbook, Instagram, etc.

Tip: \* Appoint a student to be the blog designer by making them an account Admin

Note: Most schools block blog accessibility - make sure to choose a platform your students can access at school
